

Our Mission Statement

The mission of Saxon technologies is to do what we say we will do consistent with the needs of the customer, and meeting a high standard of craftsmanship through highly skilled machinists utilizing advanced manufacturing processes with a passion for attention to detail.

Our inspection department has the most advanced CNC measuring equipment to ensure our customer's schedules are met with accuracy, and quality with our commitment to their needs.

Saxon's objective is to build a relationship with our customer where they are confident and secure in our track record that proves their urgent requirements are met with a sound understanding.

We understand that the more security we offer our clients, they will in turn, enable Saxon to advance at a steady pace ensuring a long and happy employment for our loyal and trusted employees.
